

Andre Schwab

Financial Strategist · Secunda

Husband, dad, entrepreneur – and a firm believer that money conversations go better over coffee.

About Andre

Andre helps families and business owners in Secunda and surrounds bring their whole financial picture together – investments, life cover, short-term insurance and wills – into one connected plan, explained in plain language.

Before financial planning, Andre spent years in business management, including as a general manager at Fidelity from 2013 to 2022. He's an entrepreneur at heart who loves building businesses and turning a big vision into reality – and he brings that same practical, strategic thinking to every family's plan.

How Andre works

Your goals come first, products second. Andre looks at everything together, tells you honestly where the gaps and overlaps are, and checks in regularly – because your plan should change when your life does.

Coffee with Andre

Every Monday on Facebook and Instagram, Andre answers one money question in under a minute – with a different coffee every episode.
